

HELP ON THE WAY AS JOINT REPLACEMENT SURGERIES RISE

With over 2,500 joint replacement surgeries already taking place on the Central Coast, and demand for services steadily increasing, Tuggerah Lakes Private Hospital is set to improve capacity for over 230,000 local residents in the northern Central Coast and Lake Macquarie regions.

“Providing the option for people to have their surgery in a new private hospital helps to improve the choices available, while offering a wider variety of procedures and greater expertise locally. The Central Coast and Lake Macquarie communities have been crying out for these services for many years and Healthe Care has now delivered. With more services available, local patients can get in for their surgery sooner and get on with their lives,” says Tuggerah Lakes Private Hospital CEO, Glen Auld.

The team of experienced Orthopaedic Surgeons at Tuggerah Lakes Private offer surgery for sports injuries, the treatment of osteoarthritis, and for workers compensation cases. The surgery options cover all major joints, from hips and knees, to wrists, elbows and ankles, employing the latest techniques to deliver the best possible outcomes. The hospital has contracts with all private health funds and there are options for people with no health insurance to self-fund their surgery.

"We are excited to be able to offer an increasing variety of surgery including joint replacement, ligament reconstruction as well as other arthritis and trauma surgeries to people in our local community. There is a strong desire on the part of all the staff at Tuggerah Lakes Private Hospital to be working towards providing a world class facility, that we are very proud to be a part of," says Orthopaedic Surgeon, Dr Jim Hasn.

Tuggerah Lakes Private Hospital is located directly opposite Wyong Public Hospital and offers a one-stop shop for patients, with on-site Specialist Consulting Rooms, radiology and pathology services, plentiful parking and from December an on-site café.

“We’re proud to offer these wonderful facilities for patients right in the heart of Kanwal, allowing the local community to see their Specialist, receive treatment and attend follow up appointments, without having to venture onto the M1 to Sydney or Newcastle. This is particularly important for time poor commuters, busy parents, the elderly, or those with limited mobility, with the residents of the Lake Macquarie region now also able to make the short trip down the road to Kanwal, rather than travelling around the Lake” says Mr Auld.

About Healthe Care

Healthe Care Australia is a subsidiary of Luye Medical, the health care service division of Luye Group. As a leading pan-Asian health care services group, the Healthe Care management team continues to work with other Luye Executives to explore growth opportunities across South East Asia and China. The company is the third largest corporate private hospital operator in Australia and one of the country’s largest privately owned health care organisations. Healthe Care employs near 7000 people and operates a portfolio of 34 hospitals located in major cities and key regional areas across Australia and one in New Zealand. These include around 2,500 beds and 70 operating theatres. The company also provides a range of outpatient services including workplace rehabilitation and community nursing which offer patients flexibility and continuity of care beyond their hospital stay. Healthe Care is also one of the largest private providers in the mental health sector, offering over 600 beds across Australia.
